

AutoCAD® 2022 Level II

3D Modeling

► Length

1 Day

► Cost

\$400 per person
(Dedicated group rates available)

► Level

Intermediate / Advanced

► Prerequisites

AutoCAD® 2019-2022 Level I
(or equivalent)

...or...

6-12 months continuous AutoCAD®
2019-2022 experience

► Who Can Benefit From This Class

Experienced AutoCAD® users who
need to learn about the 3D tools in
AutoCAD®

► Hours

9:00am - 4:30pm EST
with an hour lunch break

► Additional Information

This class comes with a 100%
Satisfaction Guarantee, provides
AIA/CES Continuing Education
Credits (CEU's), and each student
receives a certificate of completion.
Please see our website for more
information.

DESCRIPTION

This information-packed, one-day class introduces attendees to the tools and techniques required to view, create, and manipulate three-dimensional (3D) objects in AutoCAD®. Students will develop an understanding of the 3D drawing environment and learn to create 3D forms using multiple methods. This class is focused on the modeling aspect of 3D geometry and does not cover materials, lighting or rendering. A knowledge of basic AutoCAD commands and techniques is required.

CONTENT

Introduction to 3D

The 3D Modeling Workspace
Types of 3D Models
Navigating and Displaying 3D Models
Orbiting your 3D Model

Generating 3D Models from 2D Geometry

Choosing a Model Creation Method
Polysolids
Extrude and Presspull
Revolves and Sweeps
Lofts

Creating 3D Geometry

Working with Solid Primitives
Union, Subtract, and Intersect
Checking Interference
Introduction to Working with Point Clouds

Working in 3D

Cartesian Coordinate System
Changing the Coordinate System
Dynamically
Changing the Model Position
View Cube and Steering Wheels

Editing Models

Fillet and Chamfer
Slice

Model Documentation

Using View Creation Tools
Using Section Creation Tools
Introduction to Point Cloud Importation

LEARNING PATH

Prerequisites
AutoCAD and LT
Level I

**This
Class**
