

# Autodesk® Civil 3D 2020 Level I Essentials

## ▶ Length

3 Days

## ▶ Cost

\$1,200 per person  
(Dedicated group rates available)

## ▶ Level

Beginner / Intermediate

## ▶ Prerequisites

AutoCAD® 2017/2018/2019/2020  
Level I (or equivalent)

...or...

6-12 months continuous AutoCAD®  
2017/2018/2019/2020 experience

## ▶ Who Can Benefit From This Class

Civil design professionals who want to learn how to automate their engineering projects and processes using the intelligence of Civil 3D

## ▶ Hours

9:00am - 4:30pm EST  
with an hour lunch break

## ▶ Additional Information

This class comes with a 100% Satisfaction Guarantee, provides AIA/CES Continuing Education Credits (CEU's), and each student receives a certificate of accomplishment. Please see our website for more information.

## ▶ CADD Community

As an exclusive benefit of training with us, you'll receive 12 months of access to the on-demand version of this class through the CADD Community. The interactive training content and resources are proven to help refresh your knowledge throughout the year.

## DESCRIPTION

This class introduces the model-based design technology in Autodesk® Civil 3D® and provides the core for its application in civil engineering projects of any type. Students will examine the Autodesk Civil 3D interface and environment, the development of civil project data, and the application of settings and styles. A working knowledge of standard commands and techniques is necessary.

## CONTENT

### Concepts and Environment

User Interface  
Intelligent Objects  
Object Styles

### Establishing Existing Conditions

Surface Creation from Existing Data

### Project Management

File Formats  
Drawing Creation  
Data Sharing

### Tract Delineation

Parcel/Tract Creation

### Introduction to Road Design

Alignment Creation, Editing, and  
Annotating  
Surface and Design Profile Creation  
Cross Section Design  
Corridor Generation and Targets

### Proposed Ground

Feature Line and Breakline Creation  
Grading Objects  
Grading Object Targets and Interaction  
Surface Annotating  
Earthwork Volumes

### Introduction to Pipe Layout

Gravity Pipe Network Creation  
Pressure Pipe Network Creation

### Document Generation

Cross Section Sampling and View  
Creation  
Plan and Profile Sheet Creation

## LEARNING PATH

**Prerequisites**  
AutoCAD and LT  
Level I

**This  
Class**

**Future Training**  
Civil 3D Level I: Survey  
Civil 3D Level II: Road Design
